

A PERFECT FINISH FOR YOUR DREAM

ENDURING ELEGANCE AND LUXURY

Ever since Pebble Technology, Inc. first brought durable, naturally beautiful pebble pool finishes to the U.S., its unique formula and application process have been the industry-recognized standards for excellence. Only pool finish installers licensed by Pebble Technology, Inc. may offer a Pebble Tec finish, anything else is just rocks and cement.

Pebble Tec - Tahoe Blue

Pebble Tec brand pool finish is the original pebble finish and still delivers the enduring natural elegance and durability that combine beauty with exceptional value. Choose from 18 magical-colors offering naturally inspired beauty and durability.

Jade

Creme De Menthe

Moonlight Grey

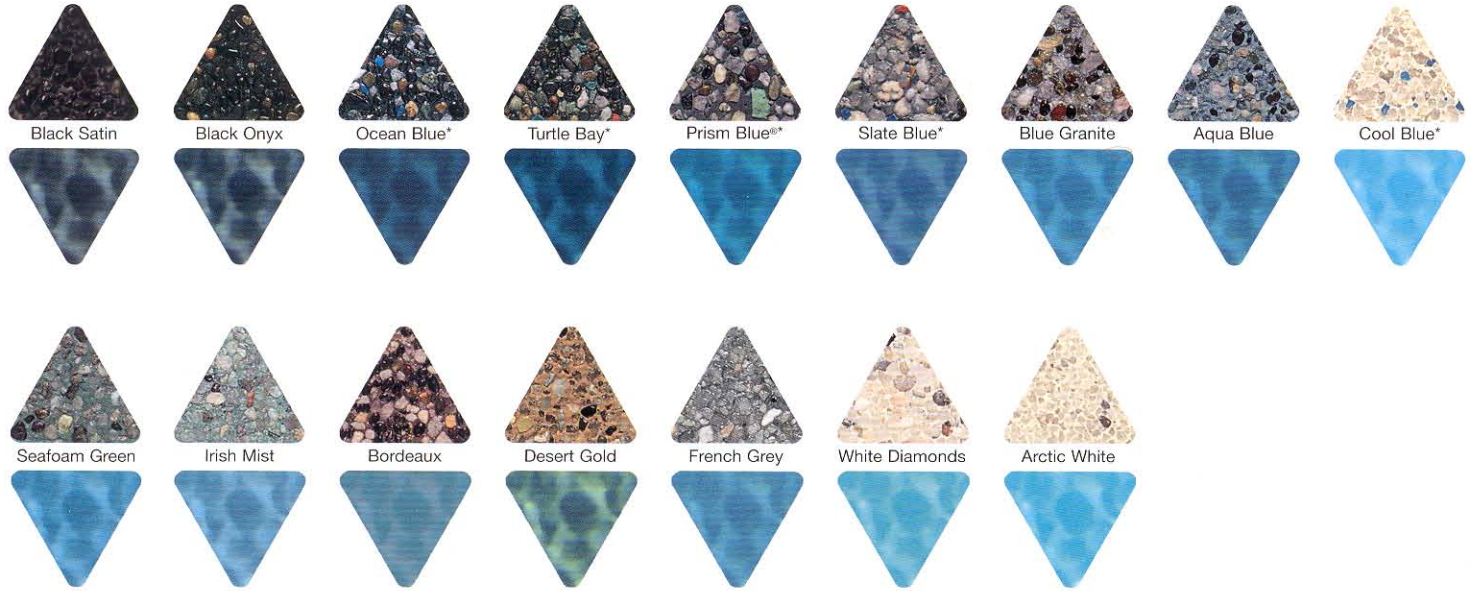

White Pearl

Soft White

Pebble Sheen brand pool finish provides the natural beauty and durability of original Pebble Tec, along with a smoother, more sophisticated elegance. Choose from 16 colors providing timeless elegance and proven dependability.

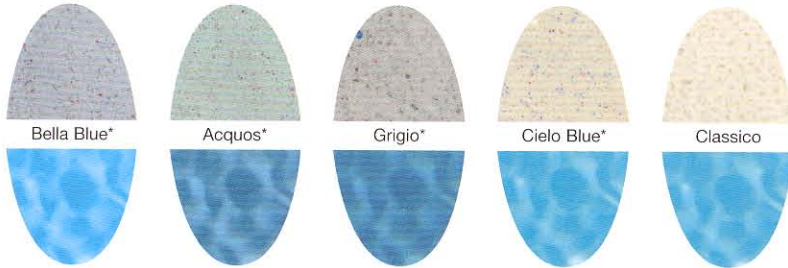

Actual finish and water color may differ from printed samples. Variations in color, shade and exposure are normal. The water's depth, angle of sunlight and surrounding landscape can all be determining factors. Actual finish samples produced by Pebble Technology, Inc. should be wet before viewing. Pebble Technology, Inc. strongly recommends viewing pools before deciding on a color. Your pool builder/installer may be able to provide pools to view.

**Disclaimer: Some colors contain seashells, such as abalone and mother of pearl. The shells are made up of material from seawater and from a living mollusk. Due to the nature of shell materials and variables of water chemistry, Pebble Technology, Inc. cannot guarantee the shell materials themselves against changes in color or brilliance. See warranty form for all limitations.*

Pebble Fina brand pool finishes combine the classic look of venetian plaster and the durability of Pebble Tec for an enduring, timeless elegance. Five exquisite colors combine old world beauty and durability with new world technology.

Color uniformity of Pebble Fina® finishes

The application process of Pebble Fina may result in an **unevenness of color or swirling effect**. This is part of the intended look.

ONLY PEBBLE TEC® IS PEBBLE TEC®.

The finish that changed interior pool coating standards in the U.S. forever, is still the standard by which all others are measured. Each and every Pebble Tec brand pool finish is comprised of the finest materials gathered from the most exotic natural settings around the globe. These carefully selected materials, combined with an exclusive time-tested cement formula, *can only be applied by fully trained and licensed installers*. It's this unmatched combination that results in the most durable, superior quality pool finishes in the world—backed by a name you know and trust. To experience the luxury—the beauty—and the durability of the finest interior pool finish, insist on the original—insist on a Pebble Tec—the best selling brand of pool finish in the world.
